Call to order/agenda/approval of minutes

Stan called the meeting to order at 10:20 AM.

Motion was made by Suzanne to approve the minutes as published. David seconded and the motion was passed.

Big Picture Work plan and Updates

The Big Picture Work Plan guides the work group as it is planning its meetings and other activities. Eva attempted to go over the Big Picture Work plan with the group. Without some historical perspective on the work plan it was difficult for the workgroup to understand what action the workgroup was supposed to take on the Big Picture Workplan. It was requested that Eva do further research on these

items and email workgroup members about what was learned before the workgroup's next meeting.

Core Indicator's Review Panel

Eva shared a draft of the Core Indicator Review Panel's recommendations. The Core Indicator Review Panel reviews Washington State's National Core Indicators survey results. This year Washington State participated in surveys for adults with developmental disabilities living in their family home and in the greater community. The 21-member panel will provide their final recommendations to both the Division of Developmental Disabilities and the DD Council. The Division is expected to respond to the recommendations and indicate which of the changes they will be trying to implement. The final draft of the report will be distributed to all Council members by January.
